RACE DIRECTOR'S AFFIDAVIT

To the best of my knowledge and belief:

- The course was accurately measured to Athletic standards for record purposes and there is no reason to doubt that the above athlete ran the full course as measured.
- The time/distance recorded for the athlete is accurate (the timer and distance were accurate and there is no reason to doubt that the above time/distance was correctly assigned to the above athlete).
- There is no reason to believe that the athlete was unfairly aided (e.g., pacing or assistance by a non-competitor, illegal assistance from another competitor, etc).
- In general, the times of athletes competing in the race were consistent with their normal level of performance (i.e., there is nothing to suggest anything untoward about the race results in general).

If the race director has any comments, concerns or reservations in answering affirmatively to the above, please comment on the bottom of this form.

| Name of race director: | |

return to: ACU records officer, e-mail: records@canultra.ca

ACU strongly prefers that applications are received by email from the race director (RD) rather than the athlete, although the athlete may complete portions of the application in advance for the race director. Applications received by an athlete will require confirmation from the RD that the application was not altered.
